## STAFFING & MILESTONES

In December of last year we welcomed Thorpe Sandvick, our Operations Manager. In the year he has spent with us, there have been some big changes in the running of Delta, and his impact on the company has been one of positive change and growth. We cannot wait to see what else he achieves in the New Year.

Among our newer staff, we also had two members of our team hit the 10 Year Milestone this year, so Delta extends our congratulations and gratitude to Graham O'Brien and Chris Stevens for their years of service, commitment to their roles.

Finally, after three and a half years of service to Delta, we are sad to bid farewell to Celine Luo, our dedicated Group Accounts Manager, at the end of this year. Initially starting out as Accounts Receivable, Celine quickly made her way up to Manager of her team, and will be taking her skills to a new industry in the New Year. We wish her all the best for the next chapter and wish to thank her for the hard work and determination she has shown over the last few years with us.

# PRODUCT RE-CAP

## FIRE TESTING TPC CORE

Delta Panels are in the midst of the FM Certification process for the Patent Pending TPC (Thermosetting Phenolic Composite) Core, for both Roofing and Walling panels.

We recently replicated and conducted the 9705 Corner Room Fire Test at our site in Richlands, and were very happy with the results of this test. Although tests are still ongoing, we are hoping and aiming for the FM approval as soon as possible on this innovative product.

## SOUTH BANK STATION - UPGRADE

Delta Panels featured in the latest NATSPEC Catalogue detailing the upgrade to South Bank Railway Station, constructed by Hutchinson Builders.

To complete this job, we supplied Non-Combustible Dual Core Panels with the Delta Trim profile and smooth ceiling to comply with NCC 2019 C1.9(e).

Dual Core panels are made from a combination of Mineral Wool and EPS, and allowed for the awning over the station to be fully compliant, with no modifications to the project design.

## DELTA PANELS CHRISTMAS PARTY 2022

THAT'S A WRAP ON 2022!

**Delta Panels want to thank all of our loyal customers and suppliers for yet another great year. We wish every a safe and happy holiday, and look forward to doing it all over again next year!**
