	Monument ®	0.74	Moderate	Exclusion >78°C
	Woodland Grey ®	0.77	High	Exclusion >78°C
	Deep Ocean®	0.83	High	Exclusion >78°C
	Ironstone®	0.86	Very High	Exclusion >78°C
	Night Sky ®	0.95	Extreme	Exclusion >78°C

Delta Panels Roof Warranty

For roof systems incorporating Expanded Polystyrene Fire Retardant (EPS-FR) insulation cores, Delta Panels identifies approved lighter colours for heat-related warranty coverage. Darker colours remain covered for manufacturing defects; however, warranty claims directly attributable to sustained dry heat temperatures exceeding 78°C may be excluded in accordance with the Delta Panels Roof Product Warranty. Where Thermosetting Phenolic Composite (TPC) or Mineral Wool (MW) insulation cores are used, all roof colours remain covered under the standard Delta Panels warranty conditions.
